## **A word from the owner Les Fenton**

It is with great regrets that I am retiring from racing pigeons after 45 years.

My early days of pigeon racing was while raising a family of five children, and running the business was a battle. I always intended to race full on after I retired. Sixteen years later and my new address in Langwarrin gave me plenty of time to spare for the birds. I was fortunate to buy a Janssen cock bird bred down from the 1988 imports by Allan Brown. In his first year in stock he bred a derby fed bird and a produce fed bird. When I shifted I took six sons and four daughters from him to start my Janssen family. All my Janssen birds have his blood in them, too many to name. He was mated to a "SCRUMPY" Van Loon from Western Australia Pradella and she was double fed union classic second bird of the series.

Birds from this mating produced many great results, including, two 1st Federation Narrandra winners and a granddaughter 1st federation produce race. There have been over seven first federation positions down from this mating and forty federation positions. When the old Janssen cock was 15 years old, he bred 1st federation Morgan four hundred and fifty miles.

I have kept this family line bred with some inclusions from the Australian Ponderosa pigeon stud.

I have always bred to type to look good, handle great and fly well. These birds would be a great cross to any imported family.

I found I could not breed my young bird team early enough. So my very good friend Peter Phillips, who could not fly for health reasons, bred for me, together we had wonderful success in young birds, winning ten 1st federations, lots of placings and federation averages.

I wish every person who purchases birds from my sale great success and as much luck and enjoyment I have had.

Yours in the sport

Les Fenton

## **A word from Peter Phillips**

It is with great regret that such a terrific flyer as Les Fenton is leaving our great sport.

I have known Les since he began racing over 40 years ago. He has always been very competitive and dedicated to his birds.

His record number of federation winners and placings are a result of this dedication.

In 2000 I had to sell most of my birds due to ill health, but as I improved I decided to get back to breeding some birds. I purchased some "SMEULDERS", "DE KLAK", Janssens from Jo Joe's in Canada and also Van Loons from Jo Joe's and Planet Brothers in England.

Les found it difficult to breed a team for young bird racing as he concentrated all his time and effort on the old bird racing. In 2003 he asked me if I could breed birds for him, A team for young birds. Each year I bred him 50 youngsters. Over the years he had great success with them, winning many federation races.

In 2008 and 2009 I purchased some Eijerkamp Janssens from Ponderosa Australia, there are birds in the sale including federation winners and placings off these birds. They were also placed in old bird fed races at 350,400 and 500 miles.

I am sure flyers who purchase these birds, will have similar success as Les did.

Yours in the sport

Peter Phillips

## **A word from Jesse Egan.**

I first started training with Les 16 years ago and the first thing he taught me was the importance in starting with quality birds. This was evident in Les breeding me the 2005 young bird National winner. It's no secret that Les loves sprint / middle distant racing and I'm sure if his birds were trained and prepared for dist racing they would be just as successful. That being said he has had some phenomenal fed places in the distance.

A few of his highs that come to mind are his 'Produce Fed Win' Two 400 ml fed wins - Multiple breeders plate winners and his 7th fed 500 ml clocking just on dark to be the only bird on the day in the Southern end of the Federation. Also winning a Fed which turned out to be the hardest winning velocity all season in the mid 900s which is a remarkable effort for a long flyer in his position, but without a doubt his biggest achievement would be that he finishes on TOP in his racing career with the most amount of VHA Federation winners to his name 29 !!! Considering the VHA is over 100 years old.. that's a lot of flyers!.

I have visited some of the most successful lofts here and overseas and I'm yet to find a family of birds that WIN and also LOOK STUNNING, his van loons & Janssens are powerful birds and all up front and have produced some outstanding results when crossed with other families. Too many to list here! His birds have been highly successful in all states but in particular NSW. Les has been racing for 50 years, so you are buying decades of breeding.

I regard Les as one of my best friends and will certainly miss the laughs we have had over the past 20 years and that includes my memories from travelling overseas together. I will always regard Les as the biggest influence in my racing career as we have over 50 Fed winners between us and no doubt he'll be at my place most Saturdays. I recommend all flyers should attend this auction as you'll be blown away with the Quality of birds, I should know as they are currently in my loft and they are hard to take your eyes off!

I wish Ruth & Les all the best in the future and please don't hesitate to call if you have any inquiries.  
Regards Jesse Egan Raintree Lofts 0403 248 487 (after 7 pm)
