**COMPLETE DISPOSAL SALE
PETER PHILLIPS.**

For my very good friend Peter Phillips. Peter and I have been friends for over 40 years. Peter was a prominent Flyer up until Ill health got the better of him. After this Peter and I came up with a plan to race young birds around the 2003 season as Peter was still capable of breeding pigeons. I was certainly keen to race them for him.

As the imported families were making their mark on the racing scene, Peter did his research and decided to buy the very best he could source at the time! No expense spared!

These Van Loon / Janssen based pigeons were carefully mated to meet the demands of a young bird training and racing program. Pairing at a set time of year, all youngster where weaned and placed on a Darkening system, fascilitating a fastest and higher quality moult for each bird. The results speak for themseives, setting new records in young birds!

10 x 1st VHA Feds, 7 x 2nd VHA Feds, 5 x 3rd VHA Feds and 1x1st VHA Fed Hay (15-08-09) and many other old bird fed placings form these young bird teams. All these positions were bred by Peter.

He is the most caring of breeders I have ever seen. These birds are hand cleaned every day, only the best offered, all sorts of carefully selected vitamins, grits and natural additives provided to a strict schedule. His attention to record keeping is impeccable as can be seen in his pedigrees. I am sure any flyer who buys these birds will have success with them! If they do as well as I have - there will be "Happy Days" ahead.

Peter thank you for a great journey shared and all the fun times!

Cheers

Les Fenton

This sale marks the dispersal of an entire loft of stock birds that have been breeding birds at the top of competition in three Melbourne Federations for the last 10 years.

Peter now finds it impossible to continue his life time involvement in the sport due to ill-health and reluctantly has to hang up the loft scrapper.

*I consider Peter to be one of the master breeders of racing pigeons. His endless time studying pedigrees, planning matings and purchases is methodical. He has directly produced **26 First Federation winners** in the last 10 years for Les Fenton (VHA), Joe Phillips (VHA), John & Leanne Share (VRPU) and Frank DePasquale (VPO).*

Leanne's 1st Fed Griffiths and 1st Fed Ouyen Van Loon cocks were both bred by Peter.

His family is a select group of Van Loons originating from JoJo Lofts in Canada, Kees Bosua & Koopmans bred directly from Pioneer Lofts imports, Gaby Vandenabeeles from Jack VanderLinden and Heremans-Ceusters from Jack VanderLinden and Ponderosa Stud. Not only magnificent looking and handling pigeons that possess all the qualities fanciers should be aiming for in top racing pigeons, but whose pedigrees are solidly backed up by performance.

This sale represents a very special opportunity for fanciers to obtain exceptional producing individuals to enhance their stock lofts. They will cross extremely well with most other families.

I unreservedly recommend these superb pigeons, but more importantly I wish to thank this great pigeon man for assisting Leanne and myself in achieving excellent results over the last 10 years.

John SHARE

On returning to the sport of pigeon racing after a 10 year absents I found my old family of racing pigeons where homing, but far too slow. After making many enquiries it was suggested I contact Peter Phillips.

When I met Peter in 2010 several things struck me, first was the many pictures on his walls of Melbourne Federation winners, there must been at least twenty and I have no doubt there are many more winners from Melbourne and Country. The other thing was Peter knowledge and passion for his pigeons. Over the years he has purchased the very best of the different Van Loon blood lines.

I was lucky enough to purchase ten Van Loons from Peter in 2011, which I kept as stock birds. The first season I raced with progeny off these pigeons was 2012, and I had success with two club wins.

From 2012 till now, of the ten pigeons, four have produced winners. One hen GEEL 2010 3437 is now my best stock hen, producing winning birds every year since 2012, her progeny are also breeding winners. Peter has also gifted me several pigeons, they have also breed winners. In 2015 from Tintinara, the first winning bird into Geelong was bred from one of the gifted pigeons. The next two birds dropped together 5 mins later and could've also won the race. Both of these birds were bred down from GEEL 2010 3437

The dispersal sale of Peter's entire stock will provide fanciers with one of those rare opportunities to purchase racing pigeons of exceptional quality.

Yours in the sport

Graeme Chapman

- Lot 1** **Pioneer 2012 - 49** **BCC** **Koopman**
 Sire of WYND13-411, 1st VPO Rochester for Frank De Pasquale (FDP), 5/07/2014, 39 Fliers, 1152 birds, 1216mpm. *411 also 1st Drop Hay, = 1st VPO, 370kms, 09/08/2014, 1705mpm*

2nd Federation Jerilderie Derby 314 Km 1693 mpm
2005 VHA Young Bird of the Year

A special thank you from Peter Phillips

I have made many friends through pigeon racing over the years since I first started as a junior with my Father, joining the Ashburton Homing Club in 1955. So I will mention just a few. I first met Joe Phillips mid 1960's and we have been great mates ever since. Many thanks Joe for everything you have done for me and for all you do for the love of our chosen sport. Jackie Stevens in helping me build my loft and for his generosity for the quality birds he gave me and many others entering our sport.

Jack Harrison, Ted Stanley, Tom Meehan, Jack Moody, and Ron Sheehan, we had great times together! Bill Bailey for the fun times we had both here and in Tassie. In recent years Les Fenton, John & Leanne Share became great friends and had success with my birds. Also Graeme Chapman from Geelong, Lindsay Brooks from Gippsland many thanks.

And for those that I have purchased birds from recently. Thank you for your efforts sourcing the best of birds from around the world and taking the punt to bring them to Australia.

Des Sippets WA, Steve Lucas - Victoria, Keith Saggars - Hillcrest Lofts, Alan Brown - Rivirera Lofts, George Desira - Ponderosa, Jack Vanderlinden - SA and Godfrey Weiss - Pioneer Lofts.

A particular thank you to Les Fenton for putting up with my daily phone calls and helping me through tough times. To Alby Armstrong who's expertise in eye sign was invaluable in the selection of stock birds. Thank you. Last, but not least to Frank De Pasquale for his help and friendship over the past 8 years, without his tireless effort this sale would not have been possible.

Of course there are many more special flyers, and families of flyers who have not been mentioned. But please understand you have not been missed, you ALL are truly appreciated, you all know who you are. Finally thank you ALL for sharing racing pigeons with me! It's been a great journey that unfortunately must come to an end. Best of luck with the birds.

Sincerely
Peter.
